THE CHARITY HOSPITAL,-At the last sersion of the City Council, a communication was submitted by Professor Weber, in the name of the Sisters of Charity, extending an invitation to that body to visit and inspect the Charity Hospital on the afterno (the 11th. The invitation was accepted, and yesterday a goodly number of the "City Fathers" met at the Hospital on Perry St They were conducted by the Lady Superior rough the different spartments and wards and invited to subject everything to the osest scrutiny.

All the rooms are next and tidy, and witht ornament. The furniture is very plain and unostentations. The noticeable feature of the establishment is its scrapulon legaliness. The general arrangements o the hospital are familiar to most, as it was ened only last October. Its plan seem be a good one and well adapted to the ses for which it is intended.

There are two wards now in use, one males and the other for females. They are roomy and well ventilated, and conveniently arranged. The beds are provided with good bair matrasses, and the bedsteads are of iron. At the end of each ward are bath oms, sewers and all necessary appliances In case of need each ward might be mado accommodate fifty patients. Now there e twenty beds in the ward for male pa tients, and only fifteen in that for females. Five of these belong to the city, and the thers are for charity patients. These wards combine the arrangements of the military and civil hospitals, and contain the good unlities of both.

Above are rooms for putients who wish to vail themselves of the treatment of the experienced physicians and surgeons who enstitute the hospital staff, and are able to pay for board and accommodation. They are plain, neat and comfortable, and contain many patients at present.

Among them are several soldiers who were wounded in the service and disabled. These come from the country for better surgical treatment than could be secured at home, and all the cases are doing well. The Kitchen, Dispensary and Operating Room were all visited and found in excellent condition.
